'57 ACCIDENT AT COLLEGE ON TRIAL IN COURT

Trial began this morning in damage suits resulting from the death of one workman and injury of another on August 28, 1957, while they were engaged in placing roofing material on the new Gettysburg College dining hall.

The trespass actions brought by Mrs. Gertrude M. Wood, Roanoke, Va., on her own behalf as widow of Gilbert Wood and on behalf of their minor children, Alonzo Martin Wood and Gilbert Maurice Wood, and by John C. Davis, Washington.

Mrs. Wood is seeking damages for herself and children because of the electrocution death of her husband, Davis, who was working with Wood at the time of Wood's death, is seeking damages for the injuries to him resulting from an electric shock which hurled him from the roof to the ground along with Gilbert Wood.

COLLEGE IS DEFENDANT

The defendants in the two cases, being tried before the court simultaneously, are A. B. and Maurice N. Seifert, trading as A. B. Seifert and Son, York, the general contractors for the dining hall; John H. Hampshire Inc., the company which served as subcontractor for placing the roof and for which Wood and Davis were working; Metropolitan Edison Co., which put a line from the street to the dining hall, and Gettysburg College as owners of the ground, for which the building was being constructed by Seifert.

Attorney Daniel E. Teeter is representing both Mrs. Wood and Mr. Davis. The local law firm of Bulleit and Bulleit represents Metropolitan Edison Co. The law firm of Brown, Swope and MacPhail represents Seifert, Hampshire and Gettysburg College.

The trial is the first of six scheduled for the current term of civil court. By noon today a jury had been drawn and Attorney Teeter, representing the plaintiffs, had outlined to the jury the general facts about the death and injury occurring almost five years ago.

According to his petition, he and his wife were divorced January 16, 1962.

The court approved discharge of Ruthetta M. Mowery and William G. Bortner, both of Hanover, as administrators of the estate of Mira A. Bortner, late of Cone-wago Twp. According to the petition for discharge the administrators have disposed of the estate in accordance with the schedule of distribution previously approved by the court.

Court Rules On Segregation In Transportation

WASHINGTON (AP) — The Supreme Court ruled unanimously today that no state may require racial segregation of transportation facilities.

Its ruling applies both to interstate facilities, that is wholly within the state, as well as interstate, or travel across state lines.

The court said the question had been settled by its previous decisions and is no longer open to litigation.

It directed the U.S. District Court in Mississippi to rule on protests by Freedom Riders who were arrested in Jackson, Miss.

The Supreme Court told the District Court to dispose of the case expeditiously, "in the light of this (today's) opinion."

TO OFFER NEW CURRICULUM IN CHEMISTRY

A new curriculum in the Chemistry Department of Gettysburg College will begin in September was announced this week.

The changes in course offerings are designed to take advantage of improved preparation of students entering as Freshmen in recent years, to avoid undue repetition of subject matter in basic courses and to permit election of advanced courses and honors work in the senior year, the announcement said. The new program is intended to make possible better preparation for graduate and medical schools and for the expanding chemical professions.

The new curriculum is expected to provide an improved course framework into which modern concepts of chemistry can be effectively integrated. Under the new plan majors in chemistry, biology and other fields will be able to complete the first year course in Fundamentals of Chemistry and the course in Organic Chemistry in two years.

The French Cabinet already has approved the agreement to end the 7½-year war.

Summit Meeting By June 1 If The Geneva Conference Makes Sufficient Progress

By LARRY OSIUS

WASHINGTON (AP) — President Kennedy has told Soviet Premier Khrushchev he hopes developments at the Geneva disarmament conference can lead to a summit meeting by June 1.

The United States and its Western allies reportedly are considering short-range disarmament proposals which they hope the Soviet Union might accept quickly at Geneva, thus providing a basis for a summit meeting in May. Included is a proposal banning transfer of nuclear weapons to other nations.

1,000-WORD REPLY

Kennedy's views were expressed Sunday in a 1,000-word note to Khrushchev rejecting the premier's second proposal that heads of the 18 nations involved open the Geneva talks March 14. The President, who wants the talks opened at the foreign ministers level, told Khrushchev to have a heads of government meeting at the beginning of the

TO ERECT NEW CHRIST CHURCH FOR \$199,112

The Gettysburg Construction Company's bid of \$199,112 has been accepted for the construction of a new church and Christian education building for the Christ United Church of Christ congregation at Littlestown, one of the oldest Protestant churches in the county.

The bid was the lowest that met specifications and was accepted at a meeting last week of church representatives and the architect. The new brick structure will be erected close to the present church building. It will be built on high ground now used for parking area and will come within 100 feet of the present building which was erected in 1798 and altered and enlarged in 1838, 1877 and 1896. The congregation celebrated its 200th anniversary in 1947.

HAVE \$107,000

What will be done with the old church has not been decided. Work is expected to start in April and the dedication has been set tentatively for Easter of next year. The church itself will be one story but there will be a two-story Christian education building to its rear that will take advantage of ground contours to provide natural lighting for both floors.

The congregation has raised \$100,000 for its building fund in the last 11 years. The fund contains \$107,000. Rev. G. Howard Koons is the pastor.

Christ Church and the historic graveyard beside it are about a half mile east of Littlestown, just north of the road leading to Hanover.

WASHINGTON (AP)—Astronaut John H. Glenn Jr. rode down the parade route of great heroes today to a ceremonial meeting of both houses of Congress assembled to honor him for his achievement as the first American orbital flier.

Just over an hour after President Kennedy had flown Glenn and his family to the capital from Florida for a day of ceremonies, the astronaut set out from the White House in the presidential bubble-top limousine for the run past cheering throngs.

INDOOR CEREMONY

The weather that had beset Glenn's orbit flight itself interfered with the first welcoming ceremony, driving it indoors in a big hangar at Andrews Air Force Base in suburban Maryland. It also shifted plans for a helicopter flight to the executive mansion, requiring a change to an impromptu motorcade.

The rain, however, had virtually stopped by the time the party—this time minus the President, set out down historic Pennsylvania Avenue.

Despite the weather, crowds lined the parade route. The President's big jet plane, flying from West Palm Beach, Fla., with Glenn and his whole family aboard, landed at Andrews Air Force Base in nearby Maryland at 11:16 a.m. EST.

POURING RAIN

The landing was made under low ceiling short visibility conditions in a pouring rain.

The weather drove the opening ceremonies, planned for outdoors, into the shelter of a big hangar.

As the rain kept pouring down, plans for a helicopter flight to carry the astronaut from the air base were canceled and a motorcade was arranged.

The presidential limousine and a fleet of other cars wheeled into the hangar 15 minutes before the expected touchdown of the President's jet.

Already on hand were Mr. and Mrs. H.W. Castor, Mrs. Glenn's parents, and her brother-in-law and sister, Mr. and Mrs. James Hoesy of Pittsburgh.

FLY FROM FLORIDA

They were flown from Florida, where they had spent the weekend with the Glens, on an Air Force jet identical to the President's.

They took their place in the area of the hangar floor reserved for "distinguished guests."

It was just as wet downtown but the hardier ones gathered early along the route of the parade from the White House to the Capitol. A few dozen were on hand behind the ropes at the Capitol Plaza two hours before Glenn was due there to appear at a joint meeting of Congress.

A cab driver on Connecticut Avenue told a reporter enroute to the White House:

MRS. KENNEDY DELAYS TRIP

WASHINGTON (AP)—The White House announced today that, because of a sinus infection, Mrs. John F. Kennedy has been forced to postpone the start of her India-Pakistan trip for a week. She is now due to begin the journey March 12.

The White House said the postponement was decided upon on the advice of the First Lady's physician.

She has been suffering from "a low-grade sinus infection for several months," press secretary Pierre Salinger said. The infection has caused an occasional fever, he added, but the fevers have been low.

The First Lady was at the airport in West Palm Beach, Fla., today to see her husband off on the flight bringing astronaut John H. Glenn Jr. and his family to Washington for a day of honors.

Sunday she went water skiing and took a dunking.

She did not make the trip back to the Capitol today, staying for a few more days in the sun.

"Highlights," the publication of the Woman's League of Gettysburg College, reports in its February issue that each evening at 7 o'clock the bell of St. Luke's Lutheran Church in Shaefferstown, Pa., is rung by a father and his son who serve as the bell-ringers for one week. This is the prayer bell. This custom originated early in the history of this church which has served since the days of the Revolutionary War. Calling the people to pause and to pray at a definite time each day has proven helpful, a spokesman said. The magazine also reports that "The Battle Cry of Freedom," the recording of Civil War songs by the Gettysburg College singers, has been selling as fast as the Music Department can provide copies.

JAIL HUBBY OF FASHION ED. IN NEGRO FUSS

CENTREVILLE, Md. (AP)—The husband of the fashion editor of the Washington Post remained in jail today and his wife was free after their arrest during a dispute at a restaurant which refused to seat four Negroes.

Gerald G. Wagner, 42, of Kensington, Md., was held in lieu of \$1,500 bond on charges of trespass and resisting arrest. Mrs. Ruth Wagner, 39, the editor, was freed in her own custody after authorities charged her with interfering with a police officer. Her bond was set at \$500.

State police gave this account of the dispute last night:

The Wagners and their two children were seated in Harley's Restaurant at Queenstown, Md., when four Negro men and women sought service and were told they could only buy food to take out. CALL TROOPERS

Wagner, offering to explain the state's trespass law to the Negroes, escorted them to his car. Meanwhile, a waitress summoned state police.

Two troopers arrived, ordered Wagner to leave and arrested him when he put up a brief argument. He was taken here to the Queen Annes County Jail.

Police arrested the fashion editor when she protested her husband's arrest. The Negroes drove off in another car.

Wagner is a representative of the chairman of the U. S. Committee for the United Nations and a Washington representative of United Artists Corp.

The affidavit, which Schimmel has prepared to accompany jurors and witness fee payments and will be stamped on the back of the check, is as follows:

"I, the undersigned, do hereby certify and affirm, by endorsement of this instrument, that I am not now in debt to the County of Cumberland, nor do I owe the County of Cumberland any monies for delinquent taxes, fines, costs, restitution or any other purposes."

Schimmel added that under the law no juror or witness may collect their fees until they sign the affidavit on the check.

SNOW, SLEET STORM SLAPS MIDWEST AREA

By THE ASSOCIATED PRESS

Another snow and sleet storm hit sections of the Midwest today, dumping another blanket of white across the snow-covered midlands.

Wet weather also was in prospect for most of the eastern half of the nation, with snow and rain in the Northeast and rain in other areas outside the Midwest snow belt.

Arctic air from Canada spread into Montana, Wyoming and North Dakota. In Montana, temperatures fell to 26 below zero in Butte, -20 in Drummond, -19 in Lewistown and -17 in Cut Bank.

The snow belt extended from Lake Michigan and Lake Superior into Kansas, Nebraska and southern South Dakota. Heavy snow fell in Iowa, with six inches reported in a six-hour period in Des Moines, making a total of 15 inches on the ground. In Waterloo, Iowa, the seven-inch fall increased the total on the ground to 17 inches.

Four to eight inches of snow was indicated in northwest Wisconsin and two to four inches in the northern half of Illinois.

Snow also spread across areas in the central Rockies, Utah, Nevada and northern Arizona.

Showers and thundershowers broke out southeast of the Midwest snow line, extending across the lower Ohio Valley into the Carolinas and Georgia. Heavy rain pelted most of western Kentucky.

Freezing rain and sleet slicked highways in northwest and extreme northern Illinois and the narrow icy belt stretched from the Oklahoma Panhandle to lower Michigan. Heavy snow or glaze warnings were posted for much of Kansas, Nebraska, northwest Missouri, Iowa and sections of Illinois and Wisconsin.

In the Far West, showers dampened scattered sections of California. Two inches of snow fell in the Mount Hamilton area south-east of San Francisco.

FOSTER HOME FOR OLD MAN WORKING WELL

NEW YORK (AP)—John Olsen, alone at 79, has found a fountain of youth through a relatively new twist on an idea that has given meaning to the lives of countless orphaned children.

He lives in a foster home for the elderly.

"This has been the life for me," Olsen said of the time he has spent in the home of Mr. and Mrs. Ernest Maxfield and their children in the Bronx.

"I am 79 and don't feel any different than when I was 20," he said. "They treat me like I was one of the family. The children call me Uncle John."

His was a situation typical of those of many of the nation's elderly. He had just been released from a hospital after suffering a broken hip. He had no immediate relatives. His hotel rent was \$90 a month and his social security check only \$78 a month.

Olsen was sent to his foster home through the Catholic Charities Family Service Department. Olsen told the New York Herald Tribune that it's the attitude of the Maxfield family that makes his foster home a happiness house.

"In some places they could keep you in the ice chest upstairs and only let you come down to eat. Now you take the two boys here—David (18) and Tommy (14)—they bought a big birthday cake for me when I was 79. The boys did this and gave me a party."

"All kidding aside," he added, "I'm in a pretty good spot."

The Maxfields receive \$150 a month, with Olsen contributing his Social Security and the City Welfare Department making up the difference. Olsen also receives about \$10 a month spending money from the city.

When Reppert was arrested, crouching behind some stores there was a bundle nearby. In it were a coil of rope, a sledge hammer, a screwdriver and two prybars.

Barbour, Idaville; George E. Meckley, Abbottstown R. 1; J. Faber Wildasin, Abbottstown, and Earl Hall, Bendersville.

James D. Shaffer, York Springs R. 1, who presided at Saturday afternoon's session, was re-elected president of the Sunday School association of the county for another year.

The other officers chosen were first vice president, the Rev. Otto Kroeger, Fairfield Lutheran pastor; second vice president, George W. Lewis, Gettysburg R. 6; secretary, Mrs. Kenneth Larue, York Springs R. 1, and treasurer, Dean McCauslin, Biglerville R. 1. **\$5 IS IMPORTANT**

These assignments were made to various commissions within the county Sunday School organizations: Children's work, Mrs. Dolores Snyder, Littlestown R. 2; leadership education, Luther M. Lady, Biglerville R. 2, and youth work, Mrs. George Stock, New Oxford R. 2.

The concluding address of the convention was delivered by State President Drain on the importance of teaching in Christian education work.

Pointing out that 87 per cent of all church workers today and 95 per cent of all ministers began their training in Sunday Schools, Mr. Drain said: "Congregations have to give a place of importance to their Sunday Schools if they are concerned about the future of the church. The Church of Jesus Christ is the foundation of our civilization and if, we are going to have a church tomorrow, we've got to have a strong Sunday School today."

GREATEST VISUAL AID

Decrying the passing of the pastor as a teacher and the failure of parents to fulfill their teaching role, he said: "Many fathers are more interested in their golf swing than their offspring. Too many other interests and responsibilities occupy pastors and parents and the Christian training of children is left more and more to the Sunday School. The greatest visual aid in Christian education is a dedicated teacher with an open Bible in his hand."

Earlier in the afternoon the Rev. R. G. Feather, Harrisburg district superintendent for the Pennsylvania Temperance League, told of the work of the Christian concerns committee of the federated legislative committee in the state. Dr. O. B. Poulson, also a member of the state committee, reported on public opinion polls being conducted by the Christian concerns committee to guide legislators on the feelings of the public on moral issues before the legislature.

URGES ACTION GROUP

Interest was shown by the Sunday School folk present in conducting such polls in this county and the Rev. Mr. Feather urged the formation of an Adams County Christian Action Federation.

The morning session was presided over by the Rev. Mr. Kroeger. Convention song leader was B. McClain Cochran, Harrisburg, general secretary of the state Sunday School Association. The Junior Choir of the host church presented special music and there were morning work-shops on the Bible, the home and music in Christian education conducted by Dr. Ralph Heim, Gettysburg Seminary; Mrs. Amos D. Meyers, York Springs, and Mr. Cochran.

In the afternoon there was special music by the Fifth District choir, directed by Dale Roth. Miss Kathryn O'Boyle directed the New Oxford choir in the morning. The Rev. John Z. Martin, host pastor, conducted the devotions at the afternoon session.

in the city.

The bazooka attack was the third assault on the Maison Carree barracks in the past two weeks. It was believed the recent arrival there of an anti-terrorist squad prompted the latest attack. The big camp, ringed with rolls of barbed wire, also houses several thousand families of military policemen.

Official sources counted 26 persons killed and 51 wounded in 48 scattered weekend terrorist attacks up to midnight Sunday.

\$10 MILLION AFL GRID SUIT OPENS TODAY

BALTIMORE (AP)—Lamar Hunt, one of the founders of the American Football League, was expected to be called as the first witness today in the AFL's \$10 million antitrust suit against the National Football League.

The trial, expected to last from four to 10 weeks, will be heard without a jury.

Hunt owns the Dallas Texans, who have been operating in competition with the Dallas Cowboys of the NFL for the past two seasons. The AFL contends the NFL moved deliberately into Dallas in 1960, knowing that the city could not support two teams.

The NFL was accused of trying to get players to break contracts with the AFL, attempting to show the new league would not honor commitments, and with threatening to blacklist the AFL's prospective players.

HEAVY LOSSES

An affidavit filed with the court said the losses of the eight AFL teams in 1960 ranged from \$245,311 in Buffalo to \$330,422 in Los Angeles. The Los Angeles franchise since has been shifted to San Diego.

The suit asks \$60,000 damages for the AFL, \$500,000 for the Dallas Texans and \$400,000 for each of the other seven teams, for a total of \$3,360,000. The suit seeks treble damages of \$10,080,000 under antitrust laws.

The NFL and 11 of its teams are defendants in the suit, which was filed before the Minnesota Vikings were formed.

BACK COURT ON BIBLE READING

PHILADELPHIA (AP)—The Philadelphia Synod of the United Church of Christ has expressed approval of a recent federal court decision forbidding Bible reading in Pennsylvania schools.

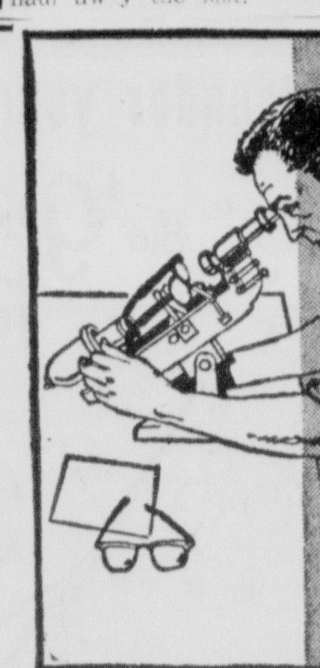

The view was expressed in a letter to pastors released Saturday. It was signed by the Rev. Wilmer H. Long, Synod president. In it he said, "It is our conviction that in the nature of our American pluralistic, democratic society, the court could not fairly decide otherwise."

The Court on Feb. 1 declared Pennsylvania's law unconstitutional. It required Bible reading for all students except those excused at parents' request.

The letter urged pastors and parents to increase Bible studies in church schools and in the home. It concurred with an editorial from a religious publication which it quoted.

The editorial said the surest way to profane the Bible "is to have passages read from it at random, under compulsion and without comment, by teachers or pupils who in some instances are entirely indifferent to what they are reading."

ATLANTA (AP)—Burglars broke into an auto service company over the weekend. They stole a television set, an adding machine and numerous other items—plus a company truck to haul away the loot.

discontinued as Sophomore courses and their subject matter will be divided between the course in Fundamentals of Chemistry and the third year course in Analytical Chemistry. Organic Chemistry now becomes the second year chemistry course for majors in chemistry and biology or for others who have completed the course in Fundamentals of Chemistry.

Chemistry majors preparing for graduate schools and for certification by the American Chemical Society will study analytical and physical chemistry in the third year, while premedical and other chemistry majors may divide these courses between the junior and senior years.

VARIOUS EFFECTS

Newly designed courses in Advanced Organic Chemistry and Advanced Physical Chemistry will be offered to qualified Seniors, as well as Independent Study (1 to 3 semester hours) within which honors work, laboratory or library research can be undertaken to fit the requirements of the individual student. Students preparing for secondary or college teaching of chemistry may enroll in the Teacher's Course which includes experience as a laboratory instructor. Course offerings in Chemistry in the Summer School beginning in 1963 will be adapted to the new program.

Attention is called to a number of effects of the new curriculum upon present science majors.

Students completing first year Chemistry 111-112 will be able to enroll in Organic Chemistry in 1962-63. By replacing the present Qualitative and Quantitative Analysis courses with Organic Chemistry the scheduled laboratory hours for chemistry majors in the sophomore year will be reduced from 6 to 3 per week. However, Qualitative and Quantitative Analysis, Chemis 201 and 202, will be given in 1962-63 especially for those now enrolled in General Chemistry 101-102. Present Juniors may elect Advanced Organic Chemistry and Independent Studies next year.

McNulty—Rice

Miss Sally Ann Rice, daughter of Mrs. Edith M. Rice, 363 North St., McSherrystown, became the bride of Anthony J. McNulty, son of Mr. and Mrs. Anthony McNulty, Chester, at 11 a.m. Saturday at Annunciation of the Blessed Virgin Mary Church, McSherrystown.

Rev. Francis M. Lahout conducted the double-ring ceremony and was celebrant for the Nuptial Mass. Joanne Conrad was soloist. The bride was given in marriage by her uncle, Donald Wagaman, Hanover.

Miss Linda Rice, twin sister of the bride, served as maid of honor; Miss Nancy McNulty, Chester, sister of the bridegroom; Miss E. K. Bernard, Arlington, Va., and Miss Bonnie Jefferson, Washington, were bridesmaids. John Sznacko, Chester, was best man. Ushers were Edward Moran, Woodlyn; William F. McGonigal, Washington, and John O'Malley, Chester, cousin of the bridegroom.

A reception at the McSherrystown Moose home was attended by about 125 guests, after which the couple left for a honeymoon in the Poconos. The couple will reside at 8028 Leonard St., Philadelphia. The bride is a 1959 graduate of Delone Catholic High School and was employed in Washington as a legal secretary. Mr. McNulty, a graduate of LaSalle College, is employed as a chemist by S. K. F. \$200,000 Fire Hits Charleroi Hotel

CHARLEROI, Pa. (AP)—A \$200,000 fire partially destroyed the 70-year-old Charleroi Hotel in this Washington County town's main business section during the week-end.

Charleroi Fire Chief Harry McCracken, who estimated damages, said the blaze possibly was touched off by a guest smoking in a third-floor room. The blaze was confined to the upper two floors of the four-story brick building.

Flames first were discovered about 7:15 Saturday evening. By midnight the fire had been brought under control by seven fire companies.

Smoke and water damaged a restaurant, a drug store, finance company offices, a woman's apparel store, a lawyer's office and a loan company office.

One fireman was injured slightly and several others were treated for smoke inhalation.

SCORES HUNT LOST FLIER

CAMBRIDGE, N. Y. (AP)—The rural area near the Vermont border opened its Town Hall—and its heart—today to aid in the search for the missing pilot of an Air Force F102 jet fighter that crashed and burned Friday night.

Town officials turned over the Town Hall in nearby Center Cambridge to the Air Force for headquarters in the search for Capt. Carl Evankovich, 31, of the 76th Interceptor Squadron at Westover Air Force Base, Mass.

About 150 persons combed the countryside for Evankovich, who was believed to have bailed out before the crash.

A spokesman at Westover said that neither the plane's canopy nor Evankovich's helmet were found in the wreckage after the plane smashed into a field about three miles east of this Washington County village.

The search party was hampered by more than a foot of new snow that fell during the weekend. Civil Air Patrol and Air Force helicopters criss-crossed within a 30-mile radius of the crash scene.

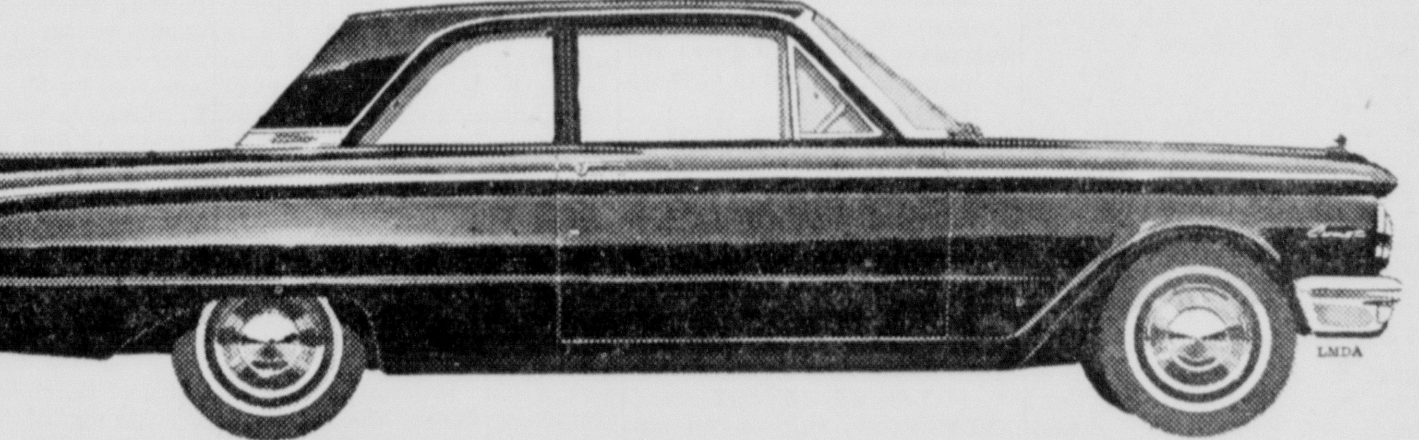

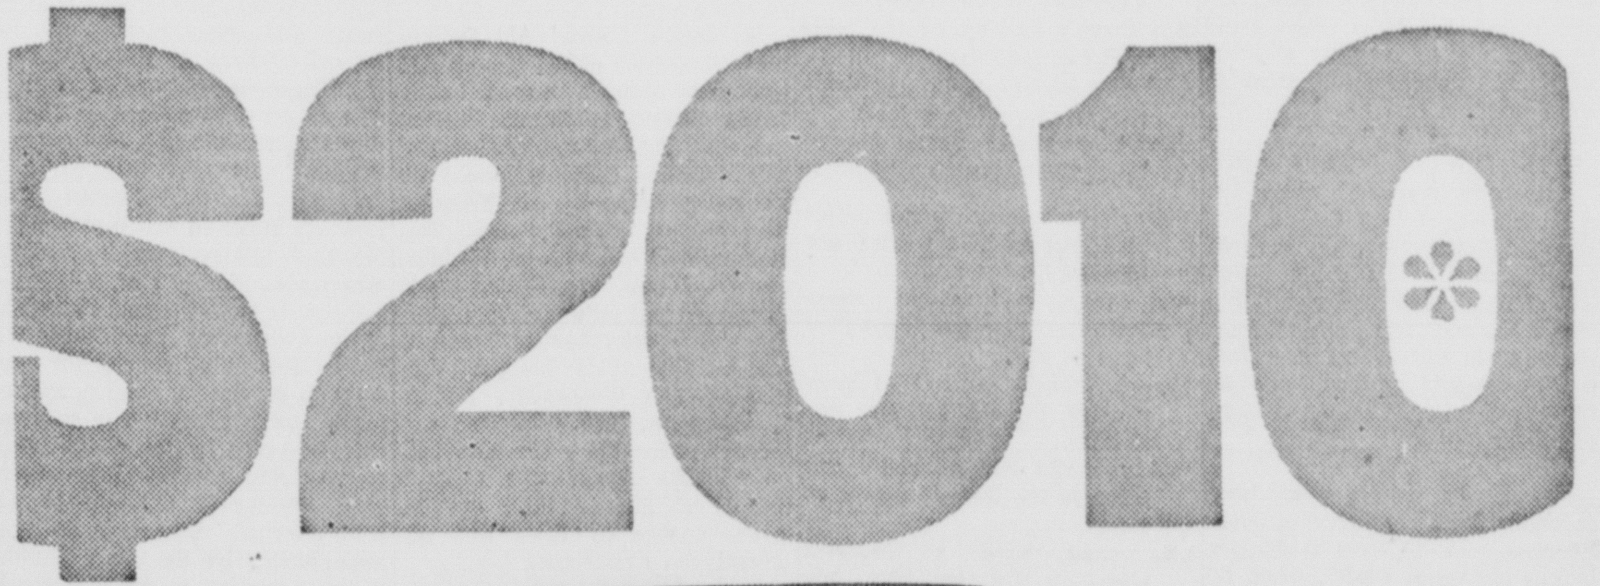

Evankovich is married and the father of two. He was on a training flight from Westover when the plane crashed about 400 yards from a farmhouse, where a man and his wife were watching television.

The pilot lived on the base with his family. His parents live in Murraysville, Pa.

Blanchard, Iowa, came to Canada in 1905 and 12 years later founded the F. P. Weaver Co. and the Montreal Dock & Coal Co. They are now Canada's largest coal importers.

Out Of The Past

From the Files of the Star and Sentinel and The Gettysburg Times
ONE HUNDRED YEARS AGO
The Hanover Silver Band are giving this week, in that place, a series of Exhibitions, embracing some scenes in the History of Washington, concluding with a beautiful model in wood of the Washington Monument, the work of Mr. Bender, of Hanover. The whole affair promises to be very interesting.

The Rebel authorities have expressed their readiness to negotiate for a general exchange of prisoners. The Confederates at the date of the negotiation, however, had three hundred more prisoners than our Government, and these also they proposed to release on parole, if our Government would promise to release three hundred of their men that next fell into their hands. — We have now several thousand more prisoners than they, so we can exchange even, and still have hosts on hand.

The Baltimore and Ohio Railroad have received orders from the War Department to set their road in working order. This is to be done at the expense of the Company, under condition that the Government shall protect the operatives. The work will be vigorously pushed, and can be completed in twenty days.

Gen. Price, having been reinforced, on the 19th made a stand at Sugar Creek Crossing, Arkansas. He was defeated by our forces after a short engagement and again fled. We have taken many prisoners and a quantity of arms which the Rebels threw away in their flight.

SEVENTY-FIVE YEARS AGO
Yesterday morning, while Dr. A. L. Sheets, of New Oxford, was crossing Swift Run, on the old Carlisle road, the ice broke and the driver, horse and sleigh fell into the creek. The Dr. had great difficulty in extricating the horse, but fortunately escaped with no more serious injury than a complete drenching.

Mr. Henry Sellers died very suddenly on Thursday afternoon. He was walking over Baltimore hill in his usual health, when he was seized with a violent coughing spell which produced a hemorrhage, and was assisted into Mr. John J. Tawney's residence, where he sat down on the steps and died before medical attendance reached him. Mr. Sellers has been a sufferer of consumption for some time, and was an industrious young man as long as he was able to work.

Farmers' Social: On Friday week the Farmers' Social met at Mr. Joseph Gelbach's, near Fairfield, with Hon. R. Wm. Bream presiding and Mr. John L. Sherfy, secretary. The use of lime as a fertilizer was discussed, and it was developed in the discussion that the first lime kiln in that section of the country was Mr. Gelbach's. The farmers of Garroll's Tract apply from 50 to 60 bushels of lime per acre to corn and wheat land, and the best results have followed.

Today's Talk

DECIDE AND ACT
Men of action run and rule the world. Everything in life and nature must move, progress and grow. Time moves forward, not backward.
When initiative dies, the heart ceases to beat.
Back of all action lies the decision. The decision may be wrong and the action that follows wrong as well, but he who is able to decide and back his decision with action serves himself and the world.
You can replace the man who merely carries out orders and does as he is told. But you have to find a man of like stature when you are compelled to replace the man of decision and action.
To a greater or lesser degree, all men who are able to decide and act upon their decisions are great.
People are not blamed so much for doing things wrongly as they are for not doing things at all! This is a charitable world. To all of us who remain as human as we were made in the first place, this is a very good and satisfactory world. But the man who merely stands around and watches the procession go by, wondering whether to join it or merely to think about it after it has gone on, earns nothing but ultimate oblivion. It would be better could he be represented with this gift at the start.
Learn to decide. The oftener you decide, the oftener you become able to decide rightly.
Then the natural thing that presents itself is to act upon the decision you make, till it becomes a habit.
Think, decide — act! The result will take care of itself.

Tomorrow Mr. Adams will talk on the subject "What People Want".

Just Folks
WHEN YOU'VE GOT A COLD
You can't enjoy the music when your eyes are flaming red.
You can't enjoy the singing for the buzzing in your head;
The sunbeams may be dancing all about you on the floor,
And Mister Opportunity be standing at your door;
But you have no wish for glory, and you've lost the love of gold
When your bronchial tubes are wheezy and you're suffering from a cold.
You can't be very happy when you're forced to cough and sneeze;
There is nothing that is pleasing in the things that ought to please.
Your dinner may be dainty and your food exactly right,
But there's nothing on the table that can tempt our appetite;
And you cannot start a chuckle when a funny tale is told;
Life is just one dismal burden when you're got a nasty cold.
Your friends may throng about you, but your thoughts are far away,
And your cold seems more important than the things they have to say.
Though there's comfort at your fireside, there is none for you to know,
And you slip through chills and fever to the deepest depths of woe.
Life may have a thousand blessings for its joys are manifold,
But you're doomed to gloom and torment when you're suffering from a cold.

Farm Land Disappearing

Fastest Where Needed Most, The Urban Centers

By RICHARD L. GRAVES
HARRISBURG (AP) — Pennsylvania's farm land is disappearing fastest where it is needed most—near urban centers.

Farm land is what government planners call open space. And the planners are concerned about what is happening to the open space around the cities, particularly the large cities.

Farms exist only in the absence of some competitive demand for the land, such as development for housing, industry or government purposes. The competition for land is sharpest near the cities.

But planners from the federal down through the local government levels recognize that there is a real need for preservation of the open space, not to protect agriculture, but to provide the benefits of open land for the sprawling urban population.

SEEK MORE LAND
As one way of preserving the open space, the state has proposed project 70, a plan that would provide \$70 million in state funds—plus local and federal money—to buy up open space as a hedge against the uncontrolled growth of the cities.

However, the government programs are still two years in the future at least. If voters in 1963 should reject the proposed bond issue to finance project 70, the open space plan would probably be further delayed — and more open land would be lost.

The problem is not just one of farm land being converted into urban area. A cost factor is involved too.
In Delaware County, adjacent to Philadelphia, farm land dwindled from 25.4 per cent of the county area in 1954 to 17.2 per cent in 1959—the years of the farm census.

VALUE INCREASES
But the value per acre of farm land increased more than 54 per

cent. In other words, the value of the remaining land is going up faster than the amount of land is diminishing. The 1959 value of the farm land remaining in the county was \$15,418,360. On the basis of the trend since 1954 there will be some 13,600 acres left by 1964 worth nearly \$28 million.
Delaware County is typical of the open space disappearance problem. Similar situations exist in less concentrated form in the other counties neighboring Philadelphia.

In the five-year stretch between censuses farm land values increased one third in Bucks County and total land in farms dropped 18 per cent. Since 1959 the decline in farm land and the increase in prices have become more acute.

If government plans to preserve open space in the urban areas, it will have to move fast or be priced out of the market for practical purposes.

The problem appears to be related strictly to population pressure. Fulton County, which has more than half of its land area in farms and no urban population by census standards, recorded only a fractional increase in the value of its land in the five-year period—from \$45.30 an acre in 1954 to \$45.90 an acre in 1959.

LAWRENCE TO BACK DILWORTH
HARRISBURG (AP) — Democratic sources here predict that Gov. Lawrence and the State Policy Committee will endorse Richardson Dilworth for governor before the week's end.
One source said Sunday the governor was ready to throw his weight behind Dilworth for governor and House Majority Leader Stephen McCann for lieutenant governor.

Another agreed that the governor would favor Dilworth and predicted the former Philadelphia mayor would be endorsed by the 72-member Policy Committee at its meeting here Friday.

The governor's office, however, would make no comment on the report. A spokesman said quite simply:

"NO CHANGE"
"There has been no change in the governor's position."

This was in reference to the governor's repeated refusal to publicly commit himself as to his favorite for the nomination.

The Philadelphia Bulletin quoted "informed sources" Sunday as saying Dilworth has the backing of 60 of the Policy Committee members.

Lawrence is said to control 38 of the 72 Policy Committee votes. Thus, it would be impossible for a candidate to be endorsed without the governor's support.

Democratic State Chairman Otis B. Morse, when questioned about the reported swing to Dilworth, would say only that he has not "polled the members of the Policy Committee."

ROME (AP)—Letitia Baldrige, Mrs. Jacqueline Kennedy's social secretary, was in Rome to arrange for the visit of the U.S. President's wife this week.

Mrs. Kennedy will arrive here a week from today en route to India and Pakistan. She will spend two days here, staying at Villa Taverna, residence of the U.S. ambassador.

U.S. embassy officials quoted Miss Baldrige as saying Mrs. Kennedy's stay in Rome would be "strictly a rest stop, with no appointments."

OKAY ATOMIC

POWER PLANT IN YORK AREA

PHILADELPHIA (AP) — The Philadelphia Electric Co. and 52 other electric utility firms had final approval today from the Atomic Energy Commission on construction plans for the world's first high-temperature, helium-cooled atomic power station in York County, Pa.

Philadelphia Electric and the 52 other firms—from New York to Hawaii, now generate nearly half of the electricity produced in the United States. They are the largest combination of privately-owned firms to plan an atomic power project.

ON MOUNTAIN SITE
The \$24.5 million 40,000-kilowatt plant, expected to be completed by mid-1964, will be located on a isolated rural mountain site along the Susquehanna River nine miles above Conowingo Dam At Peach Bottom, not far from the Maryland border, Philadelphia Electric operates a hydroelectric power station at the dam. Preliminary work already is underway.
The Atomic Energy Commission approval was announced Sunday night in Washington. AEC staff members had recommended approval last December after lengthy hearings.

Philadelphia Electric will provide \$3 million of the cost and High Temperature Reactor Development Associates Inc., formed by Philadelphia Electric and the 52 other utilities, will provide \$16.5 million.

TRAIN ENGINEERS
When the facility is completed, Philadelphia Electric will own and operate it as part of its present 3.5 million kilowatt generating system. The other firms will send their engineers to the station for experience in nuclear-fired generation.

The construction permit was issued by the AEC after hearings established the plant's design conformed to rigid nuclear safety standards. The initial proposal to build the plant was made in November, 1958, but the high temperature feature had been under development by General Dynamics Corp. since 1957. The research project already has cost the AEC about \$4.5 million.

REACTOR SPLITS ATOM
In many respects the Peach Bottom plant will be similar to a conventional power station. But instead of a furnace where coal, oil or gas is burned to produce heat, a reactor will split atoms to produce the heat, which in turn, converts water to steam, spinning the turbines, generating electricity.
Peach Bottom will be the first nuclear plant to produce commercial electric power at modern steam conditions of 1,000-degree Fahrenheit temperature and pressure of 1,450 pounds per square inch. This is expected to be done less expensively than ever.

When you are scrambling, poaching, frying or soft- or hard-cooking eggs, use the freshest possible eggs. You can use grade B eggs, however, in many cooked dishes that do not feature the egg flavor.

JUDY GARLAND GOOD ON SHOW

By CYNTHIA LOWRY

NEW YORK (AP)—Television is full of pretty girls with nice voices and special ways with a song. But none can compare with Judy Garland. A tiny figure against a dramatic, stark background, she sang for most of an hour Sunday night, and it was a special sort of communication between an audience and a great performer.

It wasn't the songs—there were mostly old popular numbers like "I Can't Give You Anything But Love," "Just In Time" and, perhaps her best number, "The Man That Got Away." Miss Garland invested them with excitement and emotion.

Actually, it was not the greatest television show of the year. Too much of the time Miss Garland was performing against dark backgrounds, and there were attention-diverting tricks of the camera. The inclusion of Frank Sinatra and Dean Martin, neither in particularly good voice nor well rehearsed, added little. They seemed much more interested in insulting each other and being cute than in backing up the star.

NOT TOO GOOD

The adaptation of an early Maxwell Anderson play, "Saturday's Children," did not come off particularly well in its CBS hour Sunday night.

The story, penned over 30 years ago, showed its age despite efforts to bring it up to date. Inger Stevens and Cliff Robertson worked hard—too hard—as the newly married couple having their trials and tribulations. Ralph Bellamy played the girl's philosophical father, specializing in little lectures on patience and forbearance.

The rather long hour seemed to consist mostly of door-slaming, furniture-throwing, quarrels and tears, but not much comedy or even much reason for the fights.

OPERA BEAUTIFUL

The greatest concentration of plot in all of the weekend's dramatic offerings was concentrated in the NBC Opera Company production of "The Love of Three Kings" Sunday afternoon.

The colorcast was beautiful, the voices and music fine. Because it was in English, it was, unfortunately, possible to follow the plot—faithless wife, jealous husband, a strangling and a double poisoning. As a matter of fact, the only principal singer on his feet at the end of the program was the blind old father. The story line would keep a soap opera going for five years.

A Lovelier You

By MARY SUE MILLER

LIP LORE. Do you know that that your lips have no oil glands? It is for that reason they so quickly chap from wind, dry from sunning and crinkle with age. And when those defects occur, a velvety lipstick application becomes impossible.

Better care of the lip complexion, therefore, would seem the better part of beauty wisdom. Of all the treatments that help to prevent or relieve rough, lined conditions, this one is tops:

Remove all lipstick traces with a creamy cleanser. Then make a compress of absorbent cotton and warmed skin or olive oil. Apply it to the lips for 15 minutes. Thereafter pat away—do not rub or wash off—the oily residue.

For the small effort, your lips immediately appear smoother.

For a sustained effect, however, you should repeat the treatment once each week or at least several times monthly.

Your lips also need some day-to-day codding. These are the ways:

● Always remove lipstick before retiring, then apply moisturized lip pomade.

● If your lips are especially sensitive to weather or if they are lined, wear your pomade under your lipstick. So worn, it provides day-long protection and a lovely gloss, too.

5 Generations

Seated is Mrs. Sarah E. Nace, R. 4, on her recent 84th birthday anniversary. Standing are Mrs. Margie Hess, Gettysburg, daughter of Mrs. Nace; Mrs. J. Darrell Nelson, Taneytown, daughter of Mrs. Hess; Baby Steven Nelson represents the fifth generation and is being held by his father, Francis, also of Taneytown, son of Mrs. Nelson.

● Never apply layer upon layer of lipstick. Remove it and start fresh.

● Be sure to use a creamy, moisturized type of lipstick.

● Guard against biting or wetting the lips. The habit damages the lips' complexion, make-up and expression!

To firm and uplift sagging facial muscles and flesh, use my four-way method. It works wonders through corrective exercise, posture, skin care and make-up. Procedures are detailed in the leaflet, "BANISH CREPEY THROAT & CHIN." For your copy, write me: A Lovelier You, Box 158, The Gettysburg Times, Dundee, Ill., enclosing 10c in coin and a large self-addressed, stamped envelope.

GLENN JOINS SELECT GROUP

WASHINGTON (AP)—For a man who doesn't wear a general's star on his shoulder, Lt. Col. John H. Glenn Jr. moved in select military company when he was greeted today at a joint meeting of Congress.

Except for the President and visiting heads of state, joint gatherings of the House and Senate usually are reserved for generals, although an Army technical sergeant made the elite group in 1945.

Sgt. Jake W. Lindsay of Lucedale, Mass., led a parade of military brass into the House chamber for a joint session on May 21, 1945. Lindsay was a hero of the invasion of Germany and was personally given the Medal of Honor in the well of the House by President Harry S. Truman.

Gen. Dwight D. Eisenhower addressed a joint meeting less than a month later, on June 18, after his triumphant return from Europe.

On September 10, 1945, Gen. Jonathan Wainwright, the hero of Bataan, was received at separate Senate and House sessions.

Gen. Lucius Clay reported on the Berlin crisis at separate sessions on May 17, 1949.

The Senate and the House met jointly on April 19, 1951, to hear Gen. Douglas MacArthur, who had just been recalled from Japan, and again on May 22, 1952, to hear Gen. Matthew Ridgway, who had replaced MacArthur as commander in the Far East.

COP, FATHER OF 12, TO BE LAWYER SOON

BALDWIN, N. Y. (AP)—Nassau County patrolman Walter R. Henesy is a devoted father to a family that soon will number a dozen children. But he hasn't had much time to enjoy the role.

For the past six years, he has been grinding away at his studies—going to bed late, arising early for his regular job and doing odd jobs on the weekend to pay for his education.

Now that's all in the past. He recently passed his bar examination and expects to be admitted to the bar in June.

The Brooklyn-born patrolman, now 42, grew up in Oceanside, N. Y. He had to leave high school to take a job to help support his family, which had 10 children.

STAGGERED SCHEDULE

After Army service in the China-Burma-India theater, he married his childhood sweetheart, Helen Maloney, and set about having the large family.

His bid to realize the dream of an education came after he joined the police force in 1949. First, he got his high school equivalency diploma, then attended Hofstra College by meshing it into his work schedule. Next he attended St. John's University Law School in New York City, again on a staggered schedule.

"It meant going into a room with the books and shutting yourself off from the world," said

Photographer Good Prospect For Braun

NEW ORLEANS (AP)—Dr. Werner von Braun, space expert from Redstone Arsenal at Huntsville, Ala., paused to let a photographer take his picture during a stopover here.

But when Ralph Uribe of the New Orleans States-Item started to make the picture, the flash bulb failed to explode.

Von Braun smiled and told Uribe: "You'd be a good prospect for Huntsville. We push buttons there, too, and nothing happens."

Castro Comes Out Of Seclusion Sunday

HAVANA (AP)—Looking happy and healthy, Fidel Castro emerged from 12 days of silence and seclusion Sunday for a baseball and television appearance.

The Cuban prime minister lined out two hits—one with two strikes against him—after making an unannounced appearance at a doubleheader in "Latino Americano" stadium.

The crowd of 32,000 cheered and the nation's television audience watched as Castro accepted the challenge of two pitchers to strike him out.

Castro's disappearance from the public eye set a variety of rumors to flying. One was that he had gone to Moscow, another that he had taken asylum in the Mexican Embassy.

Henesy, who earns \$7,400-a-year as a patrolman. He has no immediate plans for leaving the police force.

Saturday's Cryptoquip: ABLE TWINS TWISTED DOUBLE TIME IN OUR HOT MARATHON.

NEW YORK (AP)—Celebration of the Civil War centennial has invaded the theater with a play by Chance Skilling entitled "Conflict."

The episode, set in a small New York town in 1865, concerns a Union and a Confederate soldier who learn "the difference between compassion and cowardice."

AMAZING PSORIASIS STORY

Jan. 10, 1960 — Pittsburgh, Pa. "Doctored for psoriasis 30 years. Spent much money to no avail. Then used GHP Ointment and Tablets for 2 weeks. Scales disappeared as if by magic. In 6 weeks skin completely cleared and clean. First time in 30 years. Thanks for your marvelous products." This much abbreviated report tells of a user's success with a dual treatment for psoriasis now made available to all sufferers. Full information and details of a 14 day trial plan from Caman Co., Dept. 283-C Rockport, Mass.

22 Venezuelans Killed in Crash

CARACAS, Venezuela (AP)—A Venezuelan airliner smashed into a mountain Sunday, killing the 22 persons aboard. All reportedly were Venezuelans.

The twin-engine turboprop plane of Avensa Airlines was coming in for a landing through clouds on the resort island of Margarita, off Venezuela's east coast. It burst into flames after it crashed.

The plane carried 19 passengers and a crew of three. It ran into bad weather after taking off from Carapano, in eastern Venezuela.

GET TAX RELIEF

NEW YORK (AP)—Tax relief has been given two New York theatrical ventures, City Center and the Phoenix Theater.

A new state law exempts them, as nonprofit ventures, from the city's 5 per cent admission tax on entertainment tickets.

Both plan to continue current boxoffice prices, using the extra money as a cushion to ease ever-present financial problems.
